Dear [Recipient Team],

I am excited to apply for the AI Engineer position within the Responsible AI Team. With a Master's degree in Informatics from the Technical University of Munich and hands-on experience in AI ethics and machine learning, I am eager to contribute to your mission of developing AI technologies that prioritize fairness, accountability, and transparency.

In my current role at Huawei Munich Research Center, I am conducting research on the interpretability of Large Language Models and developing algorithms for privacy-preserving AI applications. My proficiency in Python and frameworks like PyTorch, combined with my experience in interdisciplinary teams, has equipped me with the skills necessary to address the ethical implications of AI technologies effectively. I am particularly drawn to your commitment to responsible AI practices, as it aligns with my professional goal of ensuring that AI systems positively impact society.

I am enthusiastic about the opportunity to bring my background in AI development and my passion for ethical technology to your team. Thank you for considering my application; I look forward to the possibility of discussing how I can contribute to your innovative projects.

Sincerely,

Muhammad Reza Ar Razi
